REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The most pertinent prior art are Quinn et al. (US 5528272), Koitabashi et al. (US 6382768), and Kawai et al. (US 6290335).

Regarding to claims 1 and 8: The primary reasons for the indication of the allowability of the claims is the inclusions therein, in combination as currently claimed, of the limitation that ejecting-direction control means for controlling the ejection so that the distance between the landing position of the droplet ejected from the first liquid ejecting part and the landing position of the droplet ejected from the second liquid ejecting part in the direction perpendicular to the array direction of the nozzles is shorter than a relative moving distance for which the head and the droplet landing object relatively move from when the droplet ejected from the first liquid ejecting part lands to when the droplet ejected from the second liquid ejecting part lands is neither disclosed nor taught by the cited prior art of record, alone or in combination.

Claims 2-7 are allowed because they depend directly/indirectly on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LAM S. NGUYEN whose telephone number is (571)272-2151. The examiner can normally be reached on 7:00AM - 3:30PM.
